Jeff,

HUC and the Village Water Systems are up to date on HAMP correspondence. The Tribal Council designated GC Thinelk to coordinate Tribe and Village water system arsenic compliance issues with HUC and USEPA.

HUC will add your contact information to the HAMP public meeting announcement list and continue correspondence with the designated village representatives.

Hey Tim,

I've been emailing one of the 2 emails you previously provided, but I appreciate your timely response. The HUC can assist by providing a current update on HAMP? In addition to providing all Shungopavi PWS#400259 and Mishongnvai PWS#400394 HAMP related projects: Project Summaries and MOA?

Just as an FYI, the approach that was taken while under FMCV/Ivan Sidney will not be the same approach I will take while consulting these 2 HAMP affected PWSs. Both PWSs are totally financially dependent on the Tribe, therefore a more bilateral approach w/ the HUC/Tribe will be highly considered and I'd appreciate your assistance if that's possible.

I do plan on submitting a "time certain" for a future HTC session date, in hopes of persuading the HTC to approve allocating funds to pay for my consultation services for both PWSs to prep for HAMP commissioning. As a 3rd party consultant, an unbiased evaluation of both PWSs will be provided and will focus on the individual

Village's directives pertaining to their PWS. With the ultimate goal of assisting both PWSs in achieving EPA 9 compliance through HAMP waters. I hope that give comfort to HUC, EPA DW 9, IHS, and the HWRP.

On a personal note, if I am able to garner support from both Shungopavi PWS, and Mishongnvi PWS at the "time certain" session I may request, would HUC/you consider lending your/HUC's support as well? I am currently composing a closeout report on my FMCV contract, and the HAMP issue is at the heart of that report. I have referenced you several times, all of which, are in a positive light just as an FYI.

Thanks for your time and consideration,

Your Friend,  
Jeff Mansfield

Thanks for reaching out Jeff.

This is the first email I have received. And I do not have any phone messages from you.

How can HUC assist you ?

Hey Tim,

Jeff Mansfield here, just wanted to FYI you that I am in current discussions with the Shungopavi CSA, Mr. Leon Lomakema, and I am attempting to outreach to the Mishongnavi PWS#400394 to work on their behalf in preperation for eventual HAMP commissioning.

I've attempted to contract you several times, but hope to hear from you, HUC, or the Tribe. Thanks
